

The Federal Communications Commission

Dear The Federal Communications Commission,

To whom it may concern:

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal, those who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as high-volume residential or business customers. This is clearly unfair!

I use my wireless phone for safety, security, emergencies and convenience. I don't want to lose these benefits so that big businesses can pay less than their appropriate share. I very strongly urge you to reject the proposal to move the USF collection system to a flat-fee scheme.

Sincerely,

James R. Bancroft P.O. Box 453 Morgantown, IN 46160

Keep the USF Fair!

Sincerely,

James Bancroft
